

## Head Instructors

Our head instructors are selected for their knowledge and personality. These teachers have been involved with power skating for years and have the ability to teach balance and power – with excitement and enthusiasm. We've been extremely fortunate to have the finest instruction in the city in past years, and this year will be no different. The Crowchild Twin Arena embraces the opportunity to present this program with highly dedicated and progressive staff.

Junior instructors include other prominent Crowchild graduates. They choose to support the program that they have been a part of for many years.

This program offers the youth of our communities the opportunity to develop their skating skills at a reasonable cost and in a location close to home.

## The Program

The newest innovations and the most technical methods are incorporated into our program. Each technique and drill is specifically designed for each age group at our school. The key component in the learning process here at the "Beautiful Crowchild Twin Arena" is still FUN! Each skater will progress in direct response to the amount of effort they contribute.

## Class Size

The first 20 skaters that register for each group will participate. Limited skaters on the ice will enable us to provide more individual attention to the technique of each skater.
